## Our Journey

We are an Aboriginal family owned and operated company. Born out of the need to undertake the small jobs that big businesses don't want to do or don't have time to do in the maintenance industry. Our dual strength is one built on a combination of strong family values and strong business governance. It is our vision to create local job security by taking on a variety of small long-term contracts and most importantly to create a trusted family brand for our children and future generations.

HAKC is an extension of our big dynamic and diverse family. We believe that from little things big things grow and with the love and support from our parents, partners, children, business partners and mentors we look forward to the successes and challenges ahead.
